3. Barcode Symbology

- Not required
- Code 39
 - This format allows usage of a combination of numbers, capital letters, or a small subset of symbol (-, \$/+/* and space).
 - Maximum Characters: 8
 - Typical Industry Uses: Healthcare, Automotive, Government and Healthcare
- Code 128
 - This format allows use of all characters in the AS-CII-128 character set, including letters, numbers, symbols and punctuation marks. This allows for diverse information to be stored in the code.
 - Maximum Characters: 12
 - Typical Industry Uses: Postal, Logistics, Product barcodes
- QR Code
 - This format is capable of encoding large amounts of data in a compact format including text, URLs, and binary data.
 - Ideal for asset tracking, website links and more.
 - The QR Code must be supplied at time of order in high resolution EPS/AI format.

4. Numbering

Do not include numbering
